Conceptual Note

The Fair of the Angolan Inventor / Creator, Science and Technology and Ideas - Inventions and Product Valuation, are events that privilege the presentation and discussion of results on ideas, inventions and prototypes is a perfect platform that happens annually (Fair of the Inventor / Angolan Creator) and biannual (Fair of Science and Technology and Ideas - Inventions and Valorization of Products), and has already gained prestige of considerable magnitude at National and International level and was held for the first time in 2009 under the auspices of the Ministry of Science and Technology of the Republic of Angola.

With a participation of about 120 exhibitors a year, from the 18 Provinces of Angola and abroad (Germany, South Africa, Brazil, Namibia, Portugal and Uganda), the event in one of its maximum expressions counted with the presence of about 30,000 visitors.

The 4th Edition of the Inventor / Angolan Creator Fairs opened in 2016, selected about ninety ideas, inventions and products that will be exhibited on April 26 - 30, 2017 in the different types of fairs under the aegis of the Ministry of Science and Technology Of the Republic of Angola (MINCT).

The submission of new projects is extended to participants from different countries that can compete for the International Fairs of Science and Technology and Ideas - Inventions and Product Valuation (registration until 27 March 2017).

Institutions promoting patents and trademarks, copyright and related rights are also part of this platform, enabling a perfect interaction between different actors of science, technology and innovation.

Banks and potential domestic and foreign investors find here opportunities to do business and publicize the different services available in the respective agencies.

Information regarding participation in the different types of Fairs mentioned here can be found in the attached regulation.

The Organizing Committee

Introduction

The strengthening of the National System of Science Technology and Innovation of Angola goes from several factors by the qualification of its human resources, inventory of the scientific and laboratory potential, the establishment of cooperation platforms, as well as the formulation of policies that aim to foment these areas and others.

The need to develop a local culture based on creativity and innovation, thus allowing the insertion of Science, Technology and Innovation in the country's development strategy, has guided the MINCT in carrying out activities aimed at achieving this goal.

The realization of the Fairs of Angolan Inventor / Creator, Science and Technology and Ideas Inventions and Product Valuation, as well as Conferences in Science and Technology, are part of this perspective.

For the year 2017, the Ministry of Science and Technology will hold the 8th Edition of the Angolan Inventor / Creator Fair, the 3rd Edition of the Science and Technology Fair and the 3rd Edition of the Ideas - Inventions and Product Valorization Fair.
